DRIVE GROWTH, MANAGE COSTS, BE PRODUCTIVE

MOST POPULAR FEATURES OF ACUMATICA	
Ease of use for maximum productivity	Acumatica's user interface and navigation makes working in Acumatica faster and more intuitive. Work on any mobile device, with its tablet-friendly design and dynamic page layout. Find information faster with improved keyword search, data entry with suggestions and auto-complete, and advanced filtering in grids. Complete tasks more quickly with drag and drop functionality and real-time connectivity with Excel.
Financial Management Suite	Forecast cash flow based on a 30-day trend that incorporates cash transaction statistics. Display all approvals on a single screen to manage process flow more easily and save time. Enter documents related to multiple modules within a single screen and benefit from improved tax reporting.
Distribution Management Suite	Automated inventory replenishment suggestions based on historical sales data analysis improves cash flow and optimizes stock levels. Get up-to-date freight costs for each USPS, FedEx, or UPS shipment, print carrier and return labels, and generate tracking numbers. With just a few clicks, fulfill large volumes of shipments using pre-defined, automated packing rules.
Customer Management Suite	An out-of-the box Customer Portal allows you to give customers access to financial and case information. Automatically attach incoming and outgoing emails to various Customer Management Suite features.
Project Accounting Suite	Handle the most complex billing rules and easily calculate project revenue based on key project-specific attributes. Keep better track of costs by correctly accounting for work in progress (WIP). If a bill was generated and applied incorrectly, it can now be reversed and regenerated.
Speed and performance	With powerful transaction processing capabilities, Acumatica delivers the performance your business demands. No matter how many people are using the system, users can enter data, generate reports, and navigate from screen to screen rapidly.
Extensible	The Acumatica Cloud xRP Platform now includes functionality that enables the packaging and redistribution of customizations without them conflicting with other existing customizations.
Third-party solutions	Powerful integration with popular third-party solutions, such as Box for online content and collaboration, and AvaTax by Avalara for sales tax automation.
Technology advancements	Expanded API lets users embed reports within Acumatica report writer to generate reports automatically in PDF format without user intervention. Data-rich reports now generate faster.

CUSTOMER SUCCESS STORIES

HEAR FROM OUR CUSTOMERS

400% PRODUCTIVITY GAINS
